WELLNESS

Your eyes are windows to your soul. They're also portals to your health.

Spot health problems sooner

An eye exam can spot early signs of diabetes, high blood pressure, high cholesterol and heart disease.² Not to mention cataracts and glaucoma. See it sooner. Treat it sooner.

Don't live with eye strain

Every day, we spend hours staring at phones, laptops and tablets. In fact, 60% of people spend 6+ hours in front of digital screens.³ All this exposure can put strain on our eyes and may be linked to blurred vision, dry eye and headaches.

Avoid vision creep

Your eyes are always changing (you probably don't even notice it). Our network doctors can track even the slightest changes with the latest in digital exam technology and retinal imaging. Designed for your comfort. Fine-tuned for precision.

Soak up the sun—safely

UV rays can cause cataracts, macular degeneration, vision loss and eye sunburn. Even in winter. Sunglasses can easily block 99% of these rays.⁴ Thankfully, EyeMed benefits include discounts on non-prescription sunglasses.
