

COMMUTER FSA

The Commuter FSA can be used to pay for eligible transit expenses to and from work including public transportation such as train, bus, monorail, streetcar, subway, and ferry. This also includes services such as UberPool and Lyft Shared. Vanpool expenses are eligible, but the highway vehicle must seat at least six adults, excluding the driver. Expenses for parking at or near your work location or at or near a location from which you commute using mass transit are also eligible.

The IRS pre-tax maximum is \$315 per month for transit and \$315 per month for parking expenses. You can make an election for either transit or parking expenses, or you can make an election for both. However, the funds elected to each category can only be used for expenses related to that category.
