

HOW TO PLACE YOUR MILK STORK ORDER

1

Log in to your company's Milk Stork Employee Portal.

You'll need your work email address (or other HR-approved email) to create an account.

4

Choose a Requested Delivery Date.

Your order will arrive on or before that date. Let your destination know that you are expecting a shipment.

2

Order your Milk Stork kit.

It comes with everything you need to ship or carry your breast milk home with you, including medical-grade coolers and shipping labels.

5

Enter your breast milk shipment address.

This is where you would like to send your breast milk shipment, often your home address.

3

Enter the delivery address for your Milk Stork order.

This is where you'd like to receive your empty Milk Stork cooler. It can be a hotel, short-term rental, or your home.
